

# Writing Effective IEP Goals and Objectives

Presented by:  
Mindy Day M.A. BCBA  
Houston ABA  
November 18, 2010

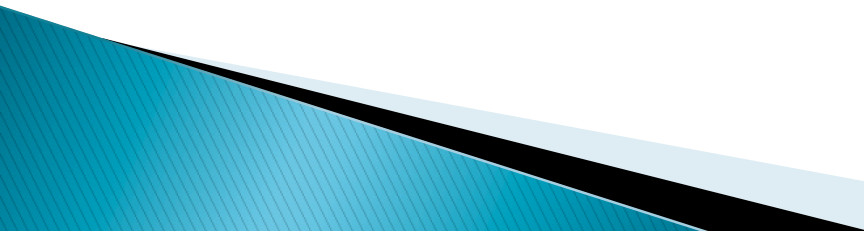

“All Children are born  
with the Gift of  
Unlimited Possibilities.”

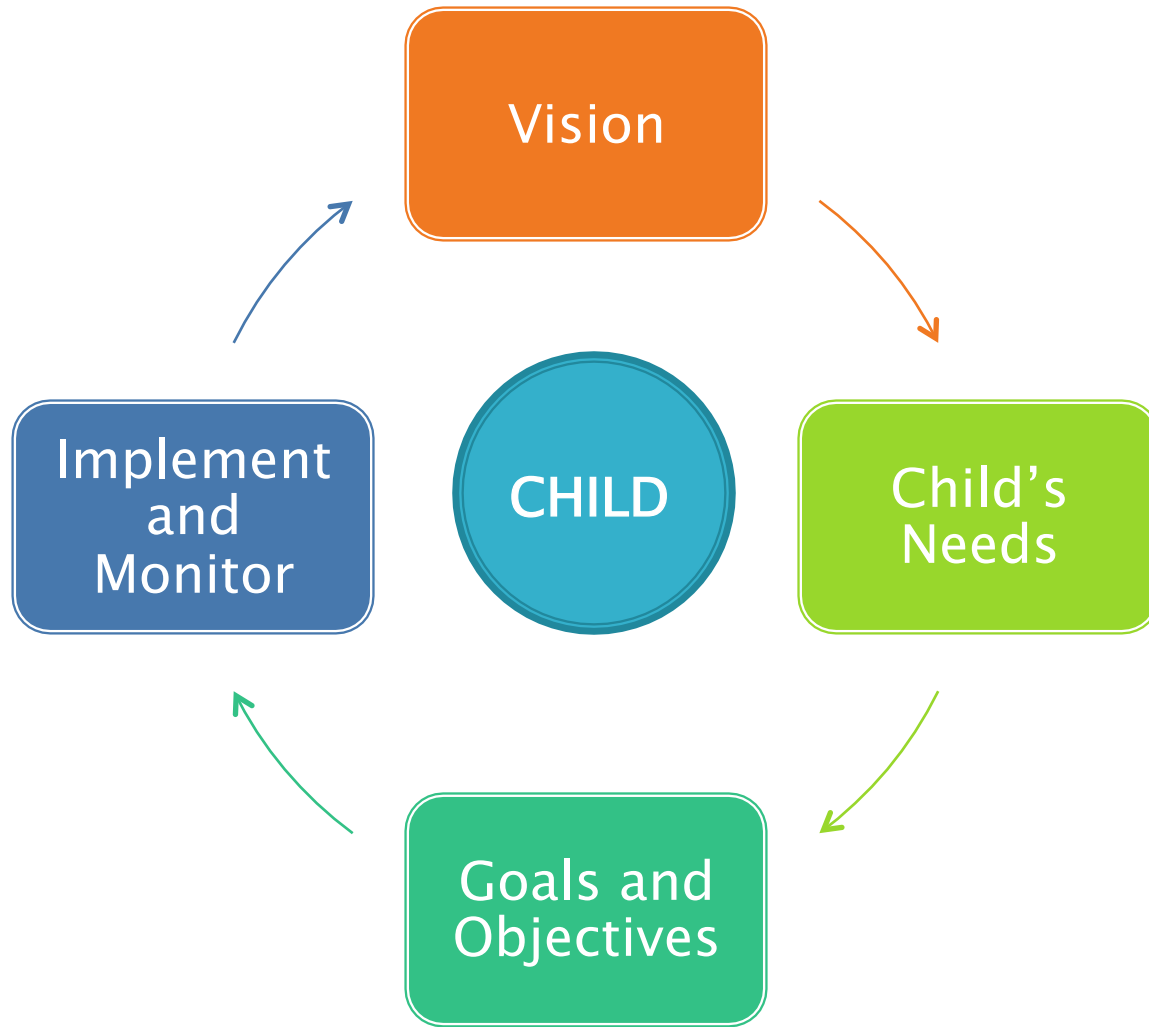

# What is an IEP?

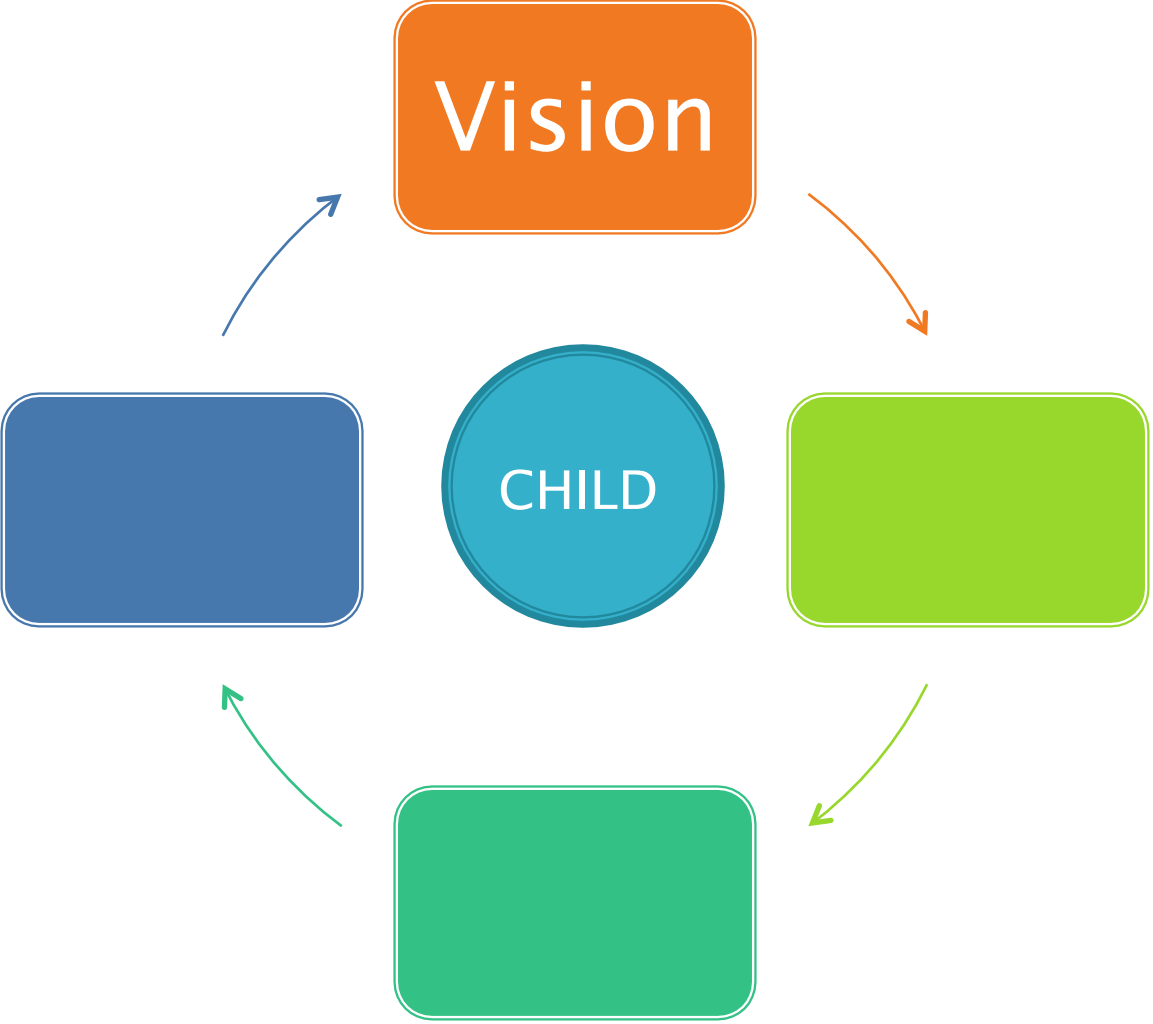

- Individualized Education Plan
- A Set of Comprehensive Goals and Objectives
- Agreed Upon by all ARD Members
- Written for a Year but can and Should be Modified as Needed

# Developing an IEP

- Determine Future/Desired Outcome
  - Identify Child's Needs
    - Present Levels of Performance
    - Consideration of General Education
    - State Learning Objectives
  - Write Operationally Defined and Measurable Goals
  - Determine Services and Program Supports
  - Implement and Monitor Progress
- 

# Vision

- What are the Families Hopes and Dreams for the Future of their Child?
  - 3–5 years from now
  - Post–school

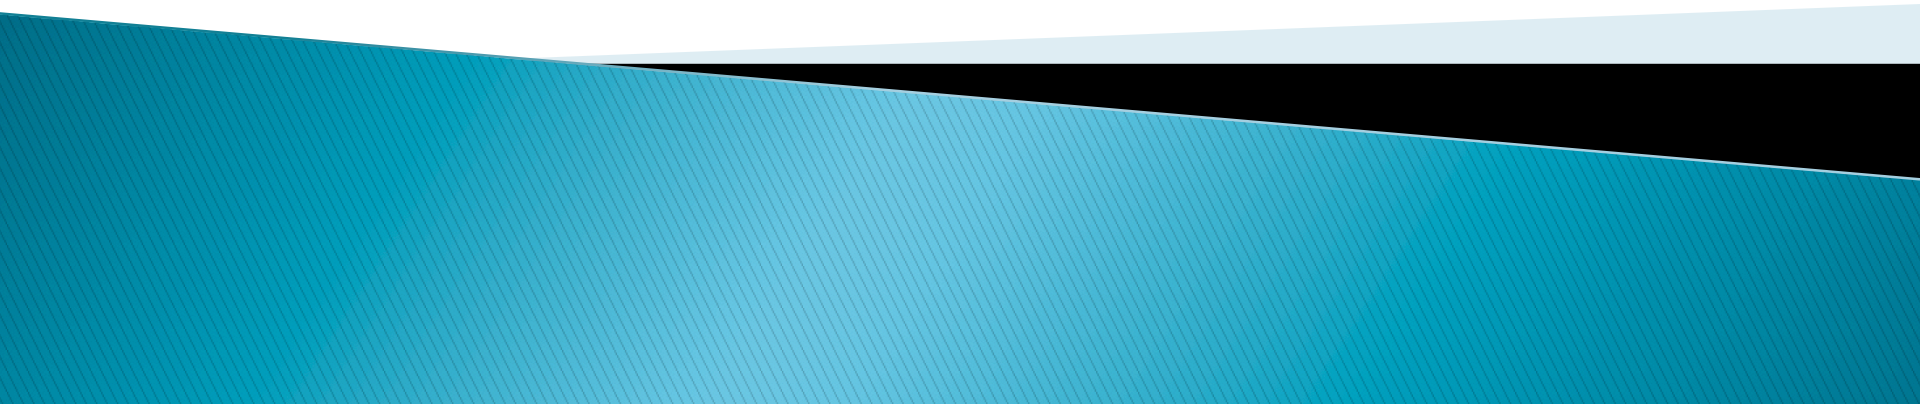

# Look at the Whole Child

Across Environments and Situations

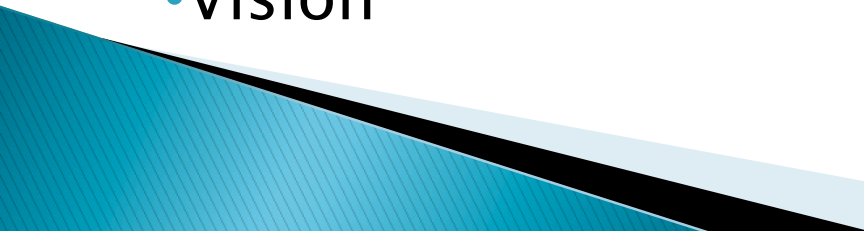

Home, Community, School,  
Post-Secondary Education, Job

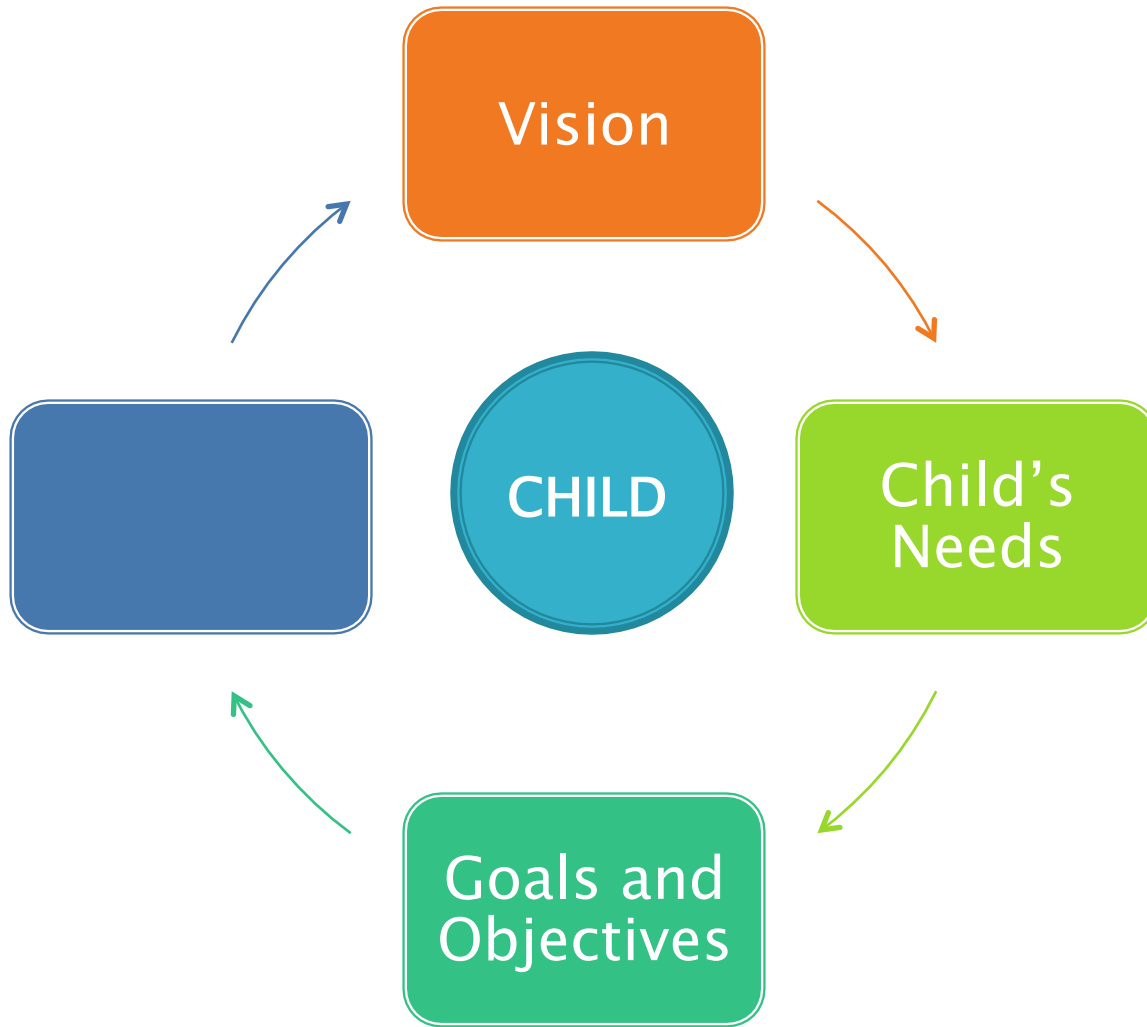

- Communication/Language
  - Academic
  - Social Interaction
  - Play
  - Recreation & Leisure
  - Independence
  - Life Skills
  - Behavior
- 

# Present Levels of Performance

- Observation/Interview
  - Assessment (ABLIS)
  - Objectives Previously Mastered
  - Rate of Learning
  - Behavior Data
- 

# Determining What Goals and Objectives are Appropriate based on Present Levels of Performance

- Curriculum (A Work in Progress by Ron Leaf and John McEachin, Behavioral Intervention for Young Children with Autism by Catherine Maurice)
    - Prerequisite Skills– Build a Foundation
    - Consider the Child's Age
    - Priorities
  - State Learning Objectives
    - Modify and Individualize
  - Vision
- 

# Writing Appropriate and Obtainable Goals

## Parts of an IEP

- Schedule of Services
- Current Level of Performance
- Individual Objectives
- Mastery Criteria

# Schedule of Services

- What is Appropriate for the Individual Child
  - Start with a Strength or Interest
- How Much Time is Spent in Each Class
- Integrated Model or a Pull-Out Model
- How will Data be Taken and Collected
  - Mastery Criteria

# Individual Objectives

- Operationally Defined
  - Specific
- Measurable
  - Data Taking/Collection

# Individualized Goals

- Measurable goals include the following:
  - Who (the student)
  - Behavior (what the student will do)
  - Criterion (to what level or degree)
  - Conditions (under what conditions or timeframe)

# Mastery Criteria

- Should be Based on Goal/Objective  
(Example: Reading, Color ID)
- Generalization of Skills Across Materials,  
People, and Environments

# Implement and Monitor

- Specific Data Should be Taken Based on IEP
  - Defined Behavior
  - Type of Scoring
  - Criteria for Mastery
- If Child is Not Making Progress
  - Modify Goals to Move Forward
- If Child Masters a Goal/Objective
  - Move to the Next Level or Goal

# Exercise #1

**\*Who, Operationally Defined Behavior,  
Criterion, Condition/Timeframe\***

**She will show an interest in circle time.**

**(Lauren is 3 years old in Preschool)**

# Exercise #2

**\*Who, Operationally Defined Behavior,  
Criterion, Condition/Timeframe\***

**Brian will understand that reading goes left  
to right.**

(Brian is 5 years old in Elementary School. He  
currently does not hold or manipulate a book.)

# Exercise #3

**\*Who, Operationally Defined Behavior, Criterion, Condition/Timeframe\***

**Amy will learn to label colors.**

(Amy is 16 years old and in High School, she can currently match by color and has been working on expressively identifying colors since she was 3 years old)

# Exercise #4

**\*Who, Operationally Defined Behavior,  
Criterion, Condition/Timeframe\***

**Steven will stop running out of the  
classroom.**

(Steven is 6 years old in a structured learning  
classroom)
